Click on "Configuration" to configure this document. Click here ["How to Configure a Document"](#), to know more about this utility.

Let's now understand how to create a New Stock Adjustment in simple steps

You have three ways to prepare a Stock Adjustment;

- Enter fresh data for the first time;
- Open an existing document and use the "Copy" feature of AlignBooks to make the necessary changes. This will save your time and efforts;
- If you have data in an Excel Format, Import data and make the required changes.

Let's enter the fresh set of data for the first time;

- 1 Location:** If you are handling multi locations, select the required location from the dropdown menu. This field is available only if you have configured "Multi location "ON" in configuration ->Company Setup->General Setup". If your desired Location does not exist in the menu, you can create a New Location by clicking on  option within the dropdown menu. You can also Edit or Delete a Location from Here. Select a Location to be edited/deleted and then click on . The Location will be opened in Edit mode and you can edit it and save by click on . You can delete it by click on .
- 2 Category:** If you are classifying your document in different categories, select the applicable category from the drop down menu. This field is available only if you have configured "Document Classification - ON" in Configuration ->Company Setup->Inventory->Basic. You can Add, Edit or Delete a Category by following the process described under Location Tab.
- 3 Ware House:** If you have multi ware houses, select the required ware house from the drop down menu. This field is available only if you have configured "Warehouse "ON" in configuration ->Company Setup->Inventory->Basic".
- 4 Voucher Date:** Enter the Stock Adjustment Voucher date which you wish to reflect in the document. By default, the system will take the current date. You can also pick a different date by just clicking on the calendar function.
- 5 Voucher No. –**
Prefix : While configuring your document, if you have opted to "maintain manual prefix", select a prefix from the drop down list. If the required prefix does not exist in the list, you are able to create a new one by clicking on  Icon or  option within the dropdown menu and input a name.
Number : While configuring your document, if you have opted to "maintain manual numbering", enter a document number here.
- 6 Pull From :** This field is used to import data from the parent document. Upon selection, a list of parent documents will be on display. If there is no parent document linked, this option will be shown as "Disabled"
- 7 Lookup :** This option will work like a Bar Code. If you enter an item Code, the system Pick-up the relevant details automatically.

So far we have entered the relevant details to clearly identify the Stock Adjustment Voucher. We will now enter the specific Item or Product details to generate a Stock Adjustment Voucher;
